

On Monday 12th March our ten eggs from 'Living Eggs' finally arrived. All in Nursery had been eagerly awaiting the arrival of the eggs in their special incubator and the anticipation and excitement grew as we waited for the eggs to hatch.

Over the last week we have been watching their progress and been privileged to see some of the eggs hatch. Thank you to Billie and her family for taking such great care of the chicks over the weekend. We will be saying farewell to our chicks on Friday when they will going to their new home in the country.

We have loved all our visitors from the other classes who have come to see our chicks and we have been amazed at how much they have grown in such a short time. We have learned so much and continue to be amazed by the wonder of God's creation!
